

## Exploring Learning Environments

You have an important role to help staff members create learning environments that are aesthetically pleasing, intellectually stimulating, nurturing, and physically and psychologically safe. Think about the questions below as you watch the [videos](#) and identify the ways these spaces promote positive learning outcomes.

### Exploring Learning Environments: School-Age Program Video

1. What do you like about how this physical space is organized?
2. How does this space help promote independence?
3. What features of this space promote engagement and intellectual stimulation?
4. What features of this space help children feel comfortable and confident?
