## week **37**

## What Children Will Learn this Week

Language/ Literacy	<ul> <li>Understanding Words and Letters</li> <li>How to understand, comprehend, and interpret information in a book</li> <li>Learning new words</li> <li>The name, sound, written form, and uses of the letter Z</li> </ul>	
12 <sup>3</sup> Mathematics	<ul> <li>Counting Things</li> <li>Identifying the number that is one more than a given number</li> <li>Creating a group of items that is one more than a number given</li> </ul>	
Social Studies	<ul> <li>Exploring Where We Live</li> <li>The concept of moving from one place to another place</li> <li>Reasons why people move from one home to another home</li> <li>How some things are different and some things are the same when we move to a new home</li> <li>Packing carefully for a move to another place</li> </ul>	
Creative Expression	<ul> <li>Being Creative</li> <li>Some creative ways to use letters, words, and pictures to help us understand how different animals move</li> <li>Some creative ways to organize pictures in a book</li> <li>How illustrations can be used to show the actual size of things</li> </ul>	
Physical/ Health	<ul> <li>Moving Our Bodies</li> <li>Practicing galloping</li> <li>Practicing hopping</li> </ul>	

## Readiness Starts Early: Tips for Promoting Your Child's Learning 3-5 Years

Social Studies	<ul> <li>Talking about a prior family move can strengthen your child's understanding of the moving process.</li> <li>Describe how your family moved from one place to another. The primary reason for a move and how things were packed may be of special interest. Show pictures, if available.</li> </ul>	<ul> <li>Asking your child to think of words that begin with a sound you say provides useful practice in a key pre-reading skill.</li> <li>For starters, invite your child to think of words that begin with a J sound. Letter J is a recent focus in your child's classroom. Examples: jam, jelly, jump. If your child is familiar with months of the year, ask him/her to identify months that begin with a J sound (January, June, July).</li> </ul>	Language/ Literacy
Physical/ Health	<ul> <li>Galloping to music is an enjoyable way for children to practice controlling body movements.</li> <li>Play different tempos of music and encourage your child to gallop to the music tempo. Add challenge by inviting your child to hop or skip when the music tempo changes.</li> </ul>	<ul> <li>Help your child strengthen his/her understanding that when we count, the next number is one more.</li> <li>Say numbers your child confidently knows, one at a time. Ask your child how many items he/she would have if you gave him/her one more. Another option is for your child to count a set of small items and say the total number of items if one more is added to the set.</li> </ul>	12 <sup>3</sup> Mathematics
		<ul> <li>Looking closely at the design of a book can broaden your child's understanding of creative efforts.</li> <li>With your child, point to and describe creative ways illustrations and text are organized in a favorite book. Illustrations may have bold colors or unique features that draw your attention. Sentences may follow the outline of a pictured object. If possible, look at children's books by Steve Jenkins and Robin Page.</li> </ul>	Creative Expression
